## **TECHNICAL DATA SHEET BOW 1200 THINNER**

### **DESCRIPTION**

BOW 1200 Thinner is a clear organic flux thinner for use with BOW fluxes. It has been developed to replace solvent loss due to evaporation during flux application. As evaporation occurs, the fluxes may experience density and viscosity changes. The 1200 Series Thinner is added to maintain the proper specific gravity and solid content for the flux.

### **PHYSICAL PROPERTIES**

Color and Appearance	Clear Liquid
Specific Gravity @68°F	0.792
Density (lbs./Gallon)	6.6
Flash Point (°F)	29°F

### **PACKAGING AND STORAGE INFORMATION**

Bow 1200 Thinner available in 1 pint, 1 quart, 1 gallon, 5 gallon and 55 gallon containers. They should be stored in a cool dry place. Since this flux is flammable, keep away from open flames and spark sources. Please consult Safety Data Sheets prior to use.
