

**Canfield Technologies, LLC**

**TECHNICAL DATA SHEET**

***Blu-Glass Flux***

An all-purpose SUPER SAFE flux with low fumes. It is ideal for artisans with sensitivities and allergic reactions to other fluxes.

Blu-Glass promotes excellent solderability on copper foil and is easily washed off with water.

Excellent for use on all Canfield's tin/lead solder as well as our lead-free alloys.

Blu-Glass Flux is less active than our Solder-Mate® Eleven.

Precautions should be taken when working with all chemical products. Please consult SDS prior to using for safety precautions.
